

MINOR IN EDUCATION

Justin Edric C. Yturzaeta

College is a period of exponential growth. We explored uncharted waters, encountered storms, and discovered great treasures. Somewhere along the way, we realize that we have become better people, and we cannot help but look back to where our adventures began and to everyone who has helped us along the way. And let us not forget to look back to God, to remember how He calms the storms for us and how He anchors us when we are unsteady. May God always be our Lighthouse, our guiding light.
