From almost never going out of the house without a car to commuting via LRT Line 2 just to make it on school on time. From an overachiever student-athlete in high school to a mediocre student who was always a few decimals away from getting DL in college, but nonetheless made a lot of memories in various extracurricular activities. From a traditional close-minded Chinese to a person who appreciated the beauty in cultural diversity. Thank you for the four wonderful and eye-opening years, Ateneo!
