

Roberto Carlo M. Tamayo

Handsome, boy does he know it. Robbie's strong character will probably turn you from the fact that he's actually one of the most genuine people you'll ever meet. You'll see him for his Complex mag aesthetic, love for basketball, and the eclectic taste for music. Constant, reliable, and irresistibly charming. It's true what they say about big guys. They have big... hearts. With his passion and his brilliance, you know that Robbie will excel in every aspect of life he pursues from here on out. - HB

The past four years have been all about transcending my boundaries: a constant process of challenging myself, opening my mind and attaining new skills. With all the people and experiences that came with it, it has allowed me not only to explore, but also, to feed and share my heart. I started my university life hoping for the growth I yearned to see in myself. Now, I'm moving forward with a deep, more holistic passion for the world; excited to face all of life's adventures head-on.
