The road to the future is far and winding, but keep on walking. No matter how many trials and hardships we face, keep on smiling. It is when we conquer the challenges ahead with good humor in our soul that the journey becomes worthwhile. No path is too difficult with a strong mental fortitude and a heart devoted to service to your fellow brothers and sisters. It took two decades to shape us, and yet the future is still far ahead. Keep walking, keep smiling, for there is more ground to cover.
