

Jessa T. Marcelino

Jessa is agreeable and reticent, but has a secret sassiness that can cut through any ego. I saw her so often in first year that I assumed it would persist, but I realise I assumed wrong. I don't see her as often anymore, but I now see her in a different light. Once unable to order alone at Jollibee, now an org VP. Once quiet, now still quiet—but more spirited. However, there lingers a flickering kindness I knew her for from the very beginning. She has flourished, but has not changed. (W. Tac-an)
