

Christopher P. King

This page was supposed to say, “Double Degree in BS Materials Science and Engineering,” but I became lazy some time in September.

Niel Robert H. Lim

I started out as a loner, but thanks to my tropa who treated me like family and for catching me in the lowest point of my life, to Block MM1 for looking out for one another at all times, and to the two J's— one for giving me the courage to ask for help and the other for never giving up on me. I now realize that I am no longer alone; that I have found my someone in all of you.
