

DOUBLE MAJOR IN BS DIGITAL GAME DESIGN AND DEVELOPMENT

## ***Melvin Luis D. Mendoza***

Early on, I kept on thinking about how my life would've been economically better if I hadn't pursued DGDD and started working instead. This thought slowly disappeared when I met my thesis group, though. They're two of the most amazing people I'll ever meet. This, along with all of the other relationships I've built within this year. The job can wait; these things are all priceless.

MINOR IN PHILOSOPHY

## ***Ima O. Ocon***

Long midnight walks blissing out to music, the comfort of jasmine tea, a violin singing crooked, but true, falling in love (there are as many loves as there are people), the formula for entropy (or all kingdoms must collapse), code so rigorous it's almost poetry, philo and its endless unanswerable questions, the shot to the brain that is alcohol, sadness that cuts, joy to the point of tears. And a borrowed prayer, even though I've ceased to believe in gods: posibilidad, posibilidad, posibilidad.
