

Margarita Anna Marie C. Tejada

Describing Marge is akin to making sense of astonishing scenery. A view is never just a visual but it is the totality of elements in quintessential harmony. In this case, she is a wonder. She carries herself with grace and a perennial sunny nature that makes her instantly appealing. A versatile person, she is both an athlete and an artist. Despite her blessings she remains grounded and extremely thoughtful and generous to the people closest to her. Her heart is a treasure far valuable than gold.
