## ***Catherine Faith G. Hoggang***

I am not alone when I say this year was full of academic turmoil. Was it worth it? No. Did I like what I was doing? Mostly no, but my moments of positivity can be attributed to Cathy. She motivated a bum like me to do better. You can rely on her efforts to get any job done, and despite being surrounded by idiots she is able to persevere. She is short, but do not look down on her. She will fight you with her tiny hands. Her moral aptitude puts mine to shame, and so I am thankful. (M. Tanchanco)
