

DOUBLE MAJOR IN BS MATHEMATICS

## ***Rebecca Georgia V. Yu***

Hey, you. I'm proud of you.

You dived into these years with no idea what would happen. People thought you were crazy, that you were wasting your time, but look: you grew in ways you never thought you would. You're better, braver, bolder, and with a hunger for good that will drive you to all the right places. Whenever you feel afraid, remember these years. Whenever you feel afraid, stop and spread your love. (And visit sometimes, will you?)

Down from the hill you go.

You'll be just fine.
