What was college?  
College was One Thing that first day in the covered courts. It was that film org. That faith org. Block mates. It was home.  
College was two courses and five years. It was Merit English, DS101, Philosophy, a thesis with no end. College was that girl I loved.  
It was a million sunsets and sunrises through the lens of my camera. It was the Aeta. It was the ocean. College was adventure.  
That was college. Yes, it was worth it.
