

MINOR IN CHINESE STUDIES

Bryant Philippe S. Lee

Let's keep this simple. Try to enjoy life as it is, even if you don't want to. Be with friends, but never forget to be alone sometimes. Live your life, and accept the fact that there will always be pain and the strength to overcome it. Remember to be yourself once in a while. Every day in this absurd life is so much better with a simple smile.

I am grateful for the life I am enjoying and the experiences I have gained. Time to see tomorrow with a head held high.

Chloe Jasmine P. Lemi

A girl who entered college with big dreams and aspirations learns that to live doesn't just mean to find a clear path for her future. It's to see the bliss in every moment: From the stressful nights of almost giving up, to the ecstatic days and nights out with friends turned into family. Growing up may have its ups and downs, but as long as she learns from each moment and always strives to be better, then she's going the right way.

Thank you, Ateneo, for teaching that girl how to truly live.
