

SPECIALIZATION IN BIOMEDICAL SCIENCES

Arielle Joy C. Torio

Great things are hardly accomplished by ordinary people, but if you've met Arielle, you know she's anything but. The path she has chosen is admittedly difficult but her unwavering determination will bring her to unimaginable heights. After four years of going to hell and back, is it going to be smooth sailing from here on out or is this the beginning of an even bumpier ride? Regardless, she'll come out stronger than ever, because for better or worse, this girl just doesn't know how to quit.

Vinyl Joseph S. Valeza

I have traveled far, made good friends, developed new skills, and learned new things. And I have realized that the world and I are not completely different. We are both under a constant state of development and growth. We fail, stumble, and fall. But, we always get back up standing. To keep trying. To fight the One Big Fight. Ateneo has taught me to find the place where I could take root and grow, but it also taught me to find the place where I can serve the world in the best way I can.
