

SPECIALIZATION IN BIOMEDICAL SCIENCES

Mika Angela C. Sareno

The journey through college is arduous and seemingly endless. However, I've learned that as long as you have faith in the Lord, have faith in yourself, and have family and friends who also have faith in you, then that journey could be THE journey of a lifetime--one filled with self-discovery, challenges, and joys, that would ultimately mold you closer to the person God calls you to be. To the Ateneo, and to the people who have traversed this journey with me, I thank you. Now, on to the next!

SPECIALIZATION IN MICROBIOLOGY

Isaiah Martin J. Sembrano

There are two ways to face the future. One way is with apprehension; the other is with anticipation. (Jim Rohn)
