

Aldrian Jason C. Gigante

Your attitude, not your aptitude, determines your altitude. (Zig Ziglar)

MINOR IN JAPANESE STUDIES

Julienne Kirsten O. Khoo

Life will neither be about grades nor failures. Messed up? Stand up. Failed Math? Try again. Got hurt? Love again. To the countless papers, all-nighters and math problems, I made it. The past four years taught me a life lesson that I will never forget: magtaya at magnahal. Because life is all about creating mistakes and learning from them. Thank you for turning me into a person of life, hope and love.
