

MINOR IN JAPANESE STUDIES

## ***Virgilio Glenn C. Sese***

Extending fourth year for a semester as a super-senior is actually more fun than I thought. I will miss you, college, and all the new friends I made. See you guys around.

MINOR IN HISTORY

## ***Alfonso Miguel N. Sevidal***

Every moment is a miracle, the product of countless factors that each could have gone some other way, but didn't. Yes, maybe some things could have gone better — that TBA could have been a Tirol, but these four irreplaceable years are what they are: a few spontaneous trips to BWings, some papers sent in at exactly 11:59PM, a couple of tiffs with groupmates, and a whole lot of smiles and tears.

It's been a long journey, but as tired as Sevi is, he's already off to the next one. (B. Solco)
