To patrickJMT, TMP Chem, Fundamentals of Biochemistry, Khan Academy, and CrashCourse: we made it.

Maria Melissa Paz V. Mercado

From the very start, I had often longed for my stay in Ateneo to be over. I desired to escape those sleepless nights, those hellish tests, and those tearful frustrations. But as I struggled ahead, I found along the way, friends to make those nights better, lessons that stayed with me forever, and laughter in spite of all those tears. It was through the hardships I've encountered that I've become a stronger, wiser and kinder person. As such, thank you, Ateneo, for every moment. It was worth it.
