

Vergel Ephraim D. Gealogo

Math scares a lot of people and rightfully so. It's a difficult field and after four years, I still don't know why I chose it. All I can say is that there's joy and beauty in finding the truths behind the proofs, and in trying to understand the language of God. I'm still not good at it, but it's made me into a good person. "I'm not good at Math, but I do know that the universe is formed with mathematical principles whether I understand them or not, and I am going to let that guide me." (Bob Dylan)
