

SPECIALIZATION IN DATA SCIENCE AND ANALYTICS; SPECIALIZATION IN ENTERPRISE SYSTEMS

Jairus Solomon C. Perez

Jairus is the kind of friend whom you would want to board a ship with. He turns each day of the journey into something you'll look back on to. He will throw you into the water then laugh at you, but he will pull you back to the ship because he loves you dearly. He's the ideal anchorage for when you feel like going insane. It's easy to be comfortable around him, which makes the journey fun and worthwhile. College is bound to dock, but friendship with Jairus will surely continue to set sail.
