Now that my journey as a student is about to come to an end, I can say that college has been the most difficult chapter of my life so far. However, despite all the stress and challenges that I have gone through, I can say that college has been the best 4 years of my life as a student. I learned a lot of new things, acquired new skills, met new friends and a lot of amazing people. Most of all, college shaped me into a better person. Thank you for the past 16 years, Ateneo. I had a blast.
