It's a misnomer.

MINOR IN FINANCIAL MANAGEMENT

Audric Alphonse C. Sy

Life is hard. Reality hit me in every aspect of my life. I'm bruised and scarred but not in a bad way. What college has done, has made me mature, made me better. Each scar is a story to tell. These scars include happy moments that I miss during the bad times. Every moment and second of my college life changed me. I am not who I was 3-4 years ago. Life is hard, but there is more to life than shallow hardships, like camaraderie, love, etc. Life is hard, but we survived and still survive. Mew mew.
