

Maria Ysabella B. Palamos

“She was fiercely independent, [Ysa Palamos]. Brilliant and beautiful and brave. In [four] years, she had grown more than anyone I had ever known. [Ysa Palamos] is going to change the world someday, and I’m not sure she even knows it” (Lucas Scott, One Tree Hill).

Thank you, Ateneo, for an amazing four years of reading and writing, stressing and chilling, laughing and crying, and everything else in between. Now on to the next!

Camille Ada N. Palma Gil

Looking back, I have come to know that the years full of struggles are the years that are the most beautiful. Nights spent studying, writing, and working allowed me to learn and grow into a wiser person. The professors who tore me down only to lay the foundation of humility built me back up again into a stronger individual. The people who were my strength in difficult times became my source of joy in good times. Thank you, Ateneo, for the four challenging but life-giving years.
