

## ***Irene B. Nillos***

She may seem quiet and reserved, but once you get to know her, all of your days will be filled with laughter. Her puns are the best; she's the punniest. School may get you down but this girl can pick you up anytime. How do you get by with all the stress. One joke from her brings out joy in despair. She's a happy little pill. (Cale)

## ***Christian Rey M. Notario***

There are many Christians in the world but never the same Christian twice. This Christian is a Rey of personalities whose function depends upon this model:

$$CR = B_0 + \beta_1 TSINELASXSHORTS + \beta_2 TULOG + \beta_3 KAPE + u$$

where  $u$  = error term/kalabuan,  $B_0$  = constant = unknown

Heteroskedastic. Unpredictable. Never runs out of ideas. Baliw pero meron. Self-proclaimed know-it-all pero wala palang alam.

Salamat Ateneo. Kayrami pang dapat tuklasin at bigyang kahulugan tulad na lamang ng tuldok na nagtatapos ng linyang ito.
