

Christine Angela V. Medina

My four-year journey in Ateneo passed by so quickly and I am still somehow in disbelief that it is now ending. I can still remember the first exam that I failed, the first friend that I made, and the first organization that I joined. I have learned a lot throughout my stay, and I sincerely thank Ateneo for helping me become a better person. I also believe that all of the things I accomplished are because of God's grace, and now, I am offering all of them for His glory.
