Forever freshie.

***Alvin Heinrich
C. Chan***

A lot of people claim that their most memorable days were in highschool. Mine, however, were in college. Shout out to all the wonderful people, friends, and professors who made my four years in Ateneo meaningful. A big thanks to the university for shaping me into a better person and preparing me for the world outside school. Too bad it all has to come to an end so quickly. Thank you for having me. See you guys on the other side.
