

## ***Jose Luis P. Astudillo***

The most important thing that I learned during my four years in Ateneo? A better version of yourself comes after every challenge, every hardship, every heartbreak, every achievement, and every victory you pull yourself through.

MINOR IN JAPANESE STUDIES

## ***Fatima E. Atabug***

Like a little girl in a candy store, Fatima entered Ateneo with an enthusiastic spirit, ready to experience all the facets the university can offer. The place brought pure magic – granting her to experience success with an A in an exam, failure in a crumpled paper, euphoria, heartbreak, Japan, and a loving community. Ironically, Ateneo unveiled the kid in Fatima – to always see the good in people and to embrace each adventure life has to offer. Thank you, Ateneo for being the sweetest memory.
